Wie stelle ich die Desktop-Sprache hier ein?

The screenshot shows the Univention Management Console (UMC) interface in a Mozilla Firefox browser. The browser's address bar shows the URL `mahucs1.mahlmann.loc/univention-management-console/`. The page title is "univention" and the user is logged in as "administrator".

The main content area displays the "Richtlinien" (Policies) configuration page for the "Desktop" policy. The page is titled "Durch Richtlinien ererbte Eigenschaften" (Inherited Properties via Policies). Below the title, there is a list of policies: "Richtlinie: Passwort", "Richtlinie: UMC", "Richtlinie: Mail-Quota", and "Richtlinie: Desktop". The "Richtlinie: Desktop" policy is selected and expanded.

Under the "Richtlinie: Desktop" policy, there is a section for "Richtlinien-Konfiguration" (Policy Configuration). The "Erbt" (Inherits) dropdown is set to "Erbt". There is a "+ Neue Richtlinie" (New Policy) button. The "Allgemein" (General) section contains the following fields:

- Desktop-Sprache (nicht gesetzt)**: A dropdown menu with a green highlight, indicating it is the target of the user's question.
- Desktop-Profil (nicht gesetzt)**: A dropdown menu with "-" and "+" buttons.
- Login-Skripte (nicht gesetzt)**: A text input field with "-" and "+" buttons.
- Logout-Skripte (nicht gesetzt)**: A text input field with "-" and "+" buttons.

At the bottom of the page, there is a "Zurück zur Suche" (Back to Search) link and a green "Änderungen speichern" (Save Changes) button.
